SIDDHARTH SHANKAR CHOUDHARY

1 in 10 patients die on the way to  
the hospital

24,012 die each day due to delay  
in medical assistance

# THE GOLDEN HOUR

# PROBLEM STATEMENT

Delay in ambulance services is a persisting problem. Nearly 30% of patients die due to delay in ambulances.

Ambulance service must be made more efficient with proper networking such that a patient in need of immediate help receives it at the right time.

# PROPOSED SOLUTION :

**ambicAB**  
SAVING LIVES ON WHEELS

An Online Ambulance Booking System that provides a patient in need with the nearest ambulance available. This ensures fast transfer of the patient to the closest hospital based on the user's live location.

# PURPOSE

LOCATION ACCURACY

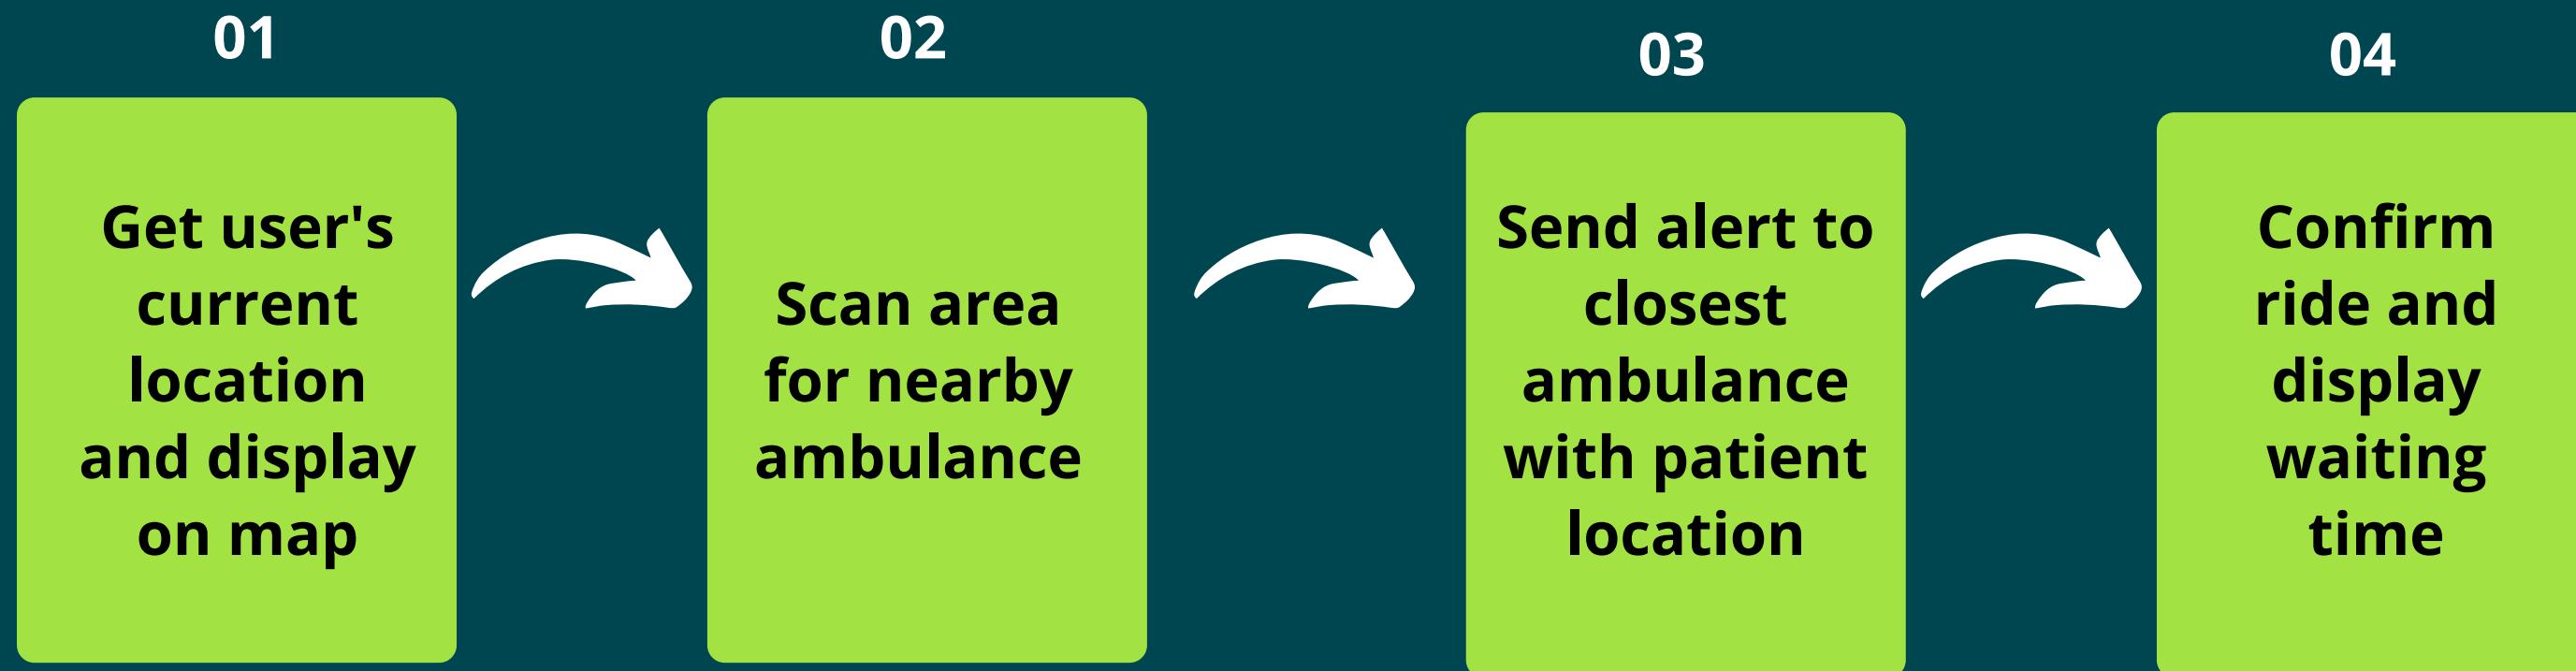

LESS WAITING TIME

A stylized illustration of an ambulance on a road. The ambulance is yellow with a red cross on the side. It has a red light bar on top and a siren on the roof. The background shows a road with dashed white lines and some greenery.

## SERVICES AVAILABLE

- ✓ Emergency ambulance booking
- ✓ Shows nearest ambulances
- ✓ Rides to Hospitals
- ✓ Hospital appointment system

# IMPLEMENTATION ROAD MAP

# FRONT END

TECHNOLOGIES  
USED

CSS

JAVA SCRIPT

PHP

# BACKEND

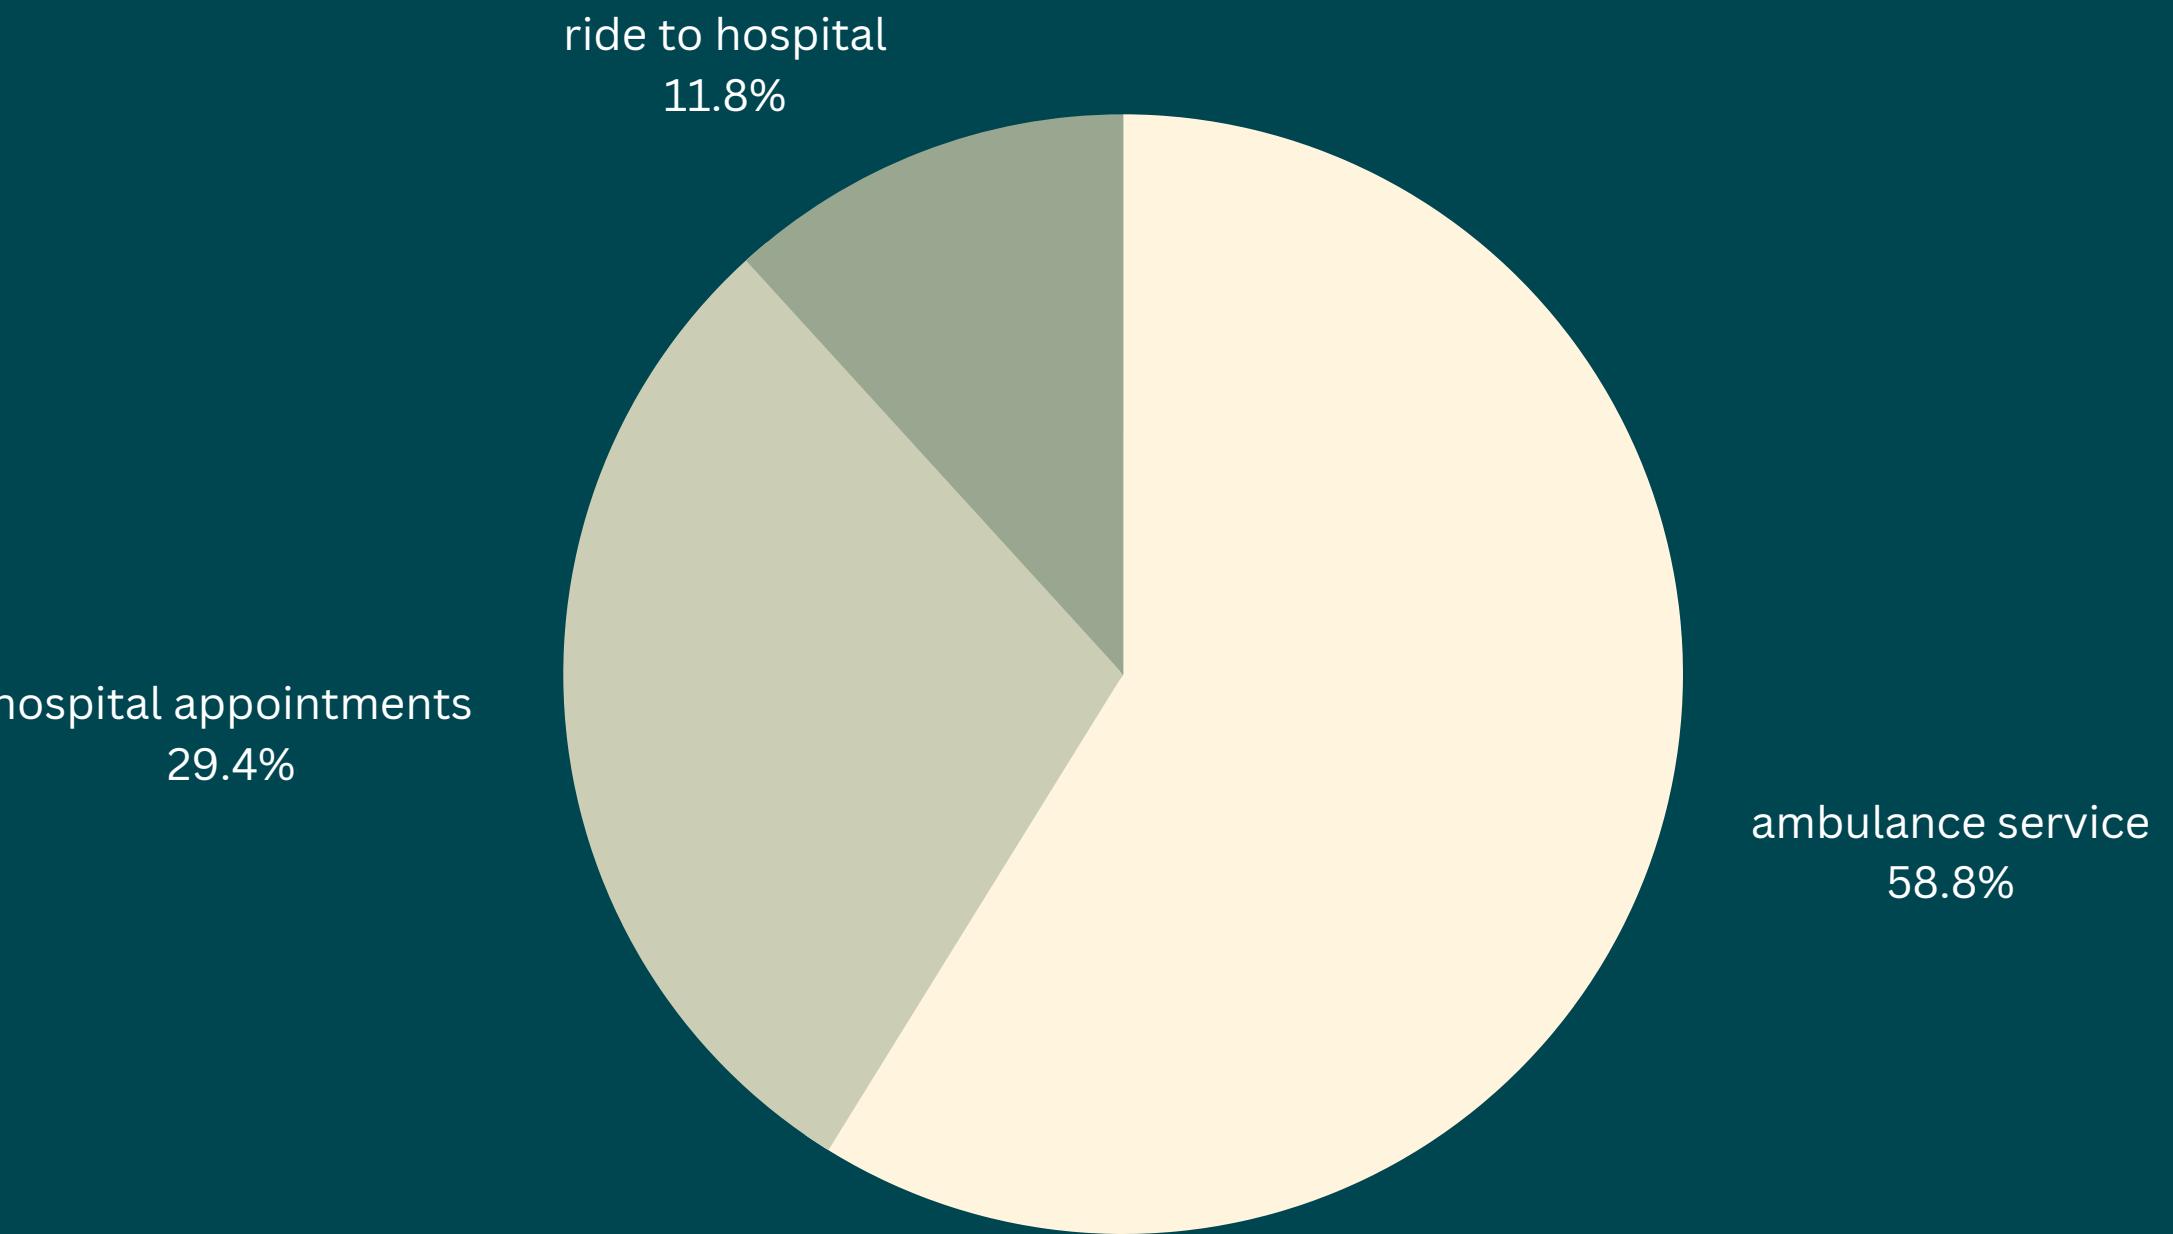

- DATABASE : MySQL
- JAVASCRIPT
- MAPS : Google Cloud Platform (APIs)

# BUSINESS MODEL

**Revenue 1:** A small percentage of the entire hospital expense of the patient that was transported to the hospital.

**Revenue 2:** Percentage of hospital appointments

**Revenue 3:** Percentage of rides to hospital via other vehicles

# FUTURE PLANS

## 1. A SEPARATE INTERFACE FOR DRIVERS

A separate application for drivers to register and be added to our database. This would enable direct communication between the drivers and the service instead of being connected to them only through the hospital

## 2. ENABLE BOOKING FOR A SPECIFIC LOCATION FROM ANYWHERE

This is for a situation that may arise when someone needs to book an ambiCAB for a patient at a different place. For this we plan to add a search bar above the map.

## 3. JOIN HANDS WITH VARIOUS NGOs TO PROVIDE MORE AMBULANCE SERVICES

*Thank You*
